SKILLS

React , Redux , Ruby , Ruby on Rails , Rails , JavaScript , HTML5 , CSS3 , SQL , PostgreSQL , MongoDB , Express , Node , Git , Webpack , Heroku , Pixelmator , Figma

PROJECTS

Don't Forget the Milk   (HTML, CSS, Rails, ReactJS, Redux, PostgreSQL)   live | github
A to-do app for busy people inspired by Rememberthemilk.com
- Utilized custom AJAX requests and React component state to persist data across multi-staged forms, allowing users to complete form sections in any order.
- Instituted BCrypt encryption and utilized cookies to implement authentication which persists across sessions.
- Leveraged Ruby on Rails' ActiveRecord ORM to minimize load time and database queries.

PlayersClub   (ReactJS, Redux, Node.js, Express.js, MongoDB, SportRadar API, Axios)   live | github
A one stop for all sport related information.
- Introduced an API search function that dynamically constructs an URI based on desired parameters.
- Hosted application online on the Heroku Cloud Application Platform for better public visibility .
- Collaborated with a team of 3 other software developers to manage a git workflow checking out feature branches and merging to master.

CSS Game   (JavaScript, HTML, CSS)   live | github
A simple speed typing game with extra bells and whistles.
- Implemented different levels of difficulties for the user to interact with in the game using pure JavaScript.
- Leveraged and explored the utility of CSS and JavaScript animations across multiple page elements.

EXPERIENCE

Package Driver
UPS   Oct 2016 - Mar 2019
- Recognized by management for efficiency and organization resulting in greater customer satisfaction.
- Generated new and continued business through outstanding customer service skills and effective communication.
- Trained and new drivers in both safety and efficiency methods, to make sure that they will be able to perform the job to the standards that is expected at UPS.

Bartender
MK Valencia Rest & Lounge   Jan 2012 - Oct 2016
- Took initiative to create a new website for the restaurant, focusing on streamlining user experience with a modern design, resulting in a 25% increase in volume of table reservations due to better online presence.
- Trained new staff in Aldelo point-of-sale software and developed new staff training procedures, establishing a solid foundation of skill sets.
- Cultivated a welcoming and engaging customer environment resulting in repeat and new business.

EDUCATION

App Academy - *Highly selective, 1000+ hour web development program with a 3% acceptance rate | May 2020*
SUNY at Buffalo - *BS Psychology, Minor Spanish | 2005 - 2010*
